METRO

Stopping the Spread of (COVID-19)

What is the Coronavirus?
The coronavirus is a virus that can cause illnesses that can range from the common cold to more severe diseases

What are the symptoms?
- Fever
- Flu like symptoms such as coughing, sore throat and headaches; and
- Difficulty breathing

How can we help prevent the spread of coronavirus?
Practicing good sneeze/cough hygiene is the best defense against most viruses

WPA Group will ensure staff and contractors will:
Wash their hands frequently with soap and water, before and after eating, and after going to the toilet (refer to attached 10 ways to reduce your risk)
Provide and use alcohol-based hand sanitizer

When to exclude people/staff from your tenancy?
Based on the Federal Government advice any persons **cannot** enter a building if they have:

1) left, or transited through, mainland China in the last 14 days (they must isolate themselves for 14 days from leaving mainland China)
2) left, or transited through, Iran in the last 14 days (they must isolate themselves for 14 days from leaving Iran)
3) left, or transited through, the Republic of Korea on or after 15 March (they must isolate themselves until 14 days after leaving the Republic of Korea)
4) been to Italy & been instructed to self-isolate for 14 days at the mandatory health screen at the Australian border
5) been in close contact with a confirmed case of coronavirus in the last 14 days (they must isolate themselves for 14 days after the date of last contact with the confirmed case)

People who have recently travelled to these countries or any countries added to the travel ban should monitor their own health for 14 days after leaving that country. If they develop a fever or cough, they should seek medical advice urgently and self-isolate.

Please refer to the isolation guidelines that relate to each on the Department of Health website www.health.gov.au
